### A & B SPECIAL HOLLANDER CABBAGE

Our A & B Cabbage Hollander matures in about 95 to 100 days. It is a new and superior strain of Danish Ballhead type which has a medium to short stem and makes very solid heads with the average weight between five and six pounds. This particular stock is widely used as a preferred Ballhead type storage Cabbage. This particular stock has one additional and attractive characteristic and that is it has what is termed, "a slight bloom" on the top leaf of the head. This bloom is a reddish-purple tinge on from two to three inches of the edge of the outside leaf. The plant, however, is a beautiful dark green color.

### A & B DANISH BALLHEAD

Our A & B Danish Ballhead Short Stem. This is our regular Danish Ballhead stock and it originated at Cornell University. It is slightly later than the Hollander stock and is a vigorous short stemmed plant with a fine solid round head slightly flattened at the top. It weighs between four and six pounds and it is an excellent storage variety. This is a fully proven well accepted stock of Danish Ballhead. We are certain it will meet the most critical requirements of customers for this fine storage type of Cabbage.

### RADISHES

Radish seed screened and graded for size ( for a more uniform planting and bunching, 5c per pound extra.

#### Early Scarlet Globe, Medium Top

24 Days

A medium top strain of Scarlet Globe for upland and sandy soil.

TOP—3 to 4 inches.

ROOT—Deep globe shape, skin bright scarlet red, flesh white and crisp.

#### Southern Market Globe

23 Days

A strain of Early Scarlet Globe developed primarily for shippers, has non-bolting tendencies.

TOP—Slightly shorter than those of medium top.

ROOT—Deep globe shaped, skin bright scarlet red, flesh white and crisp.

#### Scarlet Globe Short Top

23 Days

A very short top strain of Scarlet Globe bred for greenhouse forcing and summer planting. A dependable bulber. TOP—2½ to 3 inches.

ROOT—Mostly round, skin rich bright scarlet, flesh crisp and firm.

#### Cavalier

20 to 22 Days

We have this variety in Domestic or regular Imported stock. Our Greenhouse Special is Transplanted Cavalier. TOP—Short, very uniform, ideal for forcing or early market.

ROOT—½x¾ inches, oval or olive shape, very uniform, bright scarlet skin, tender white flesh.

#### MR 17

A mosaic resistant pickling cucumber developed at Ohio State University. It is slimmer and darker green and very productive.

VINE—Vigorous, dark green, large leaves.

FRUIT—6½-7½ inches long by 2½-3 inches in diameter, tapering, well warted. Small seed cavity, black spine.
